

Special tour for IQT The Hague attendees to House of Quantum in Delft

On March 16th, the day after the IQT The Hague Conference we offer our attendees the opportunity to visit House of Quantum in Delft. The number of participants for this unique opportunity is limited to 40 so please register quickly to take part.

Date: Thursday 16 March, 2023

Time: 13:30 - 16:00 hrs

Number of people: max. 40

Schedule: 13:30 - arrival / welcome coffee or tea
 13:45 - presentation House of Quantum by Daniel Howell (Director HoQ)
 14:00 - presentations by startups House of Quantum
 14:30 - tour past the labs
 15:15 - drinks
 16:00 - end

House of Quantum is building a national campus for the quantum technology ecosystem. It provides the physical and digital space that allows all those within the field to come together and collaborate. It is based in the Netherlands, but it serves the global community as a whole.

HoQ designs spaces that cater to the specific needs of the quantum community. Offering plug-and-play labs, flexible workstations and tailored office suites. All you need to do is move in your equipment, and you're good to go.

HoQ offers community spaces, meeting rooms, and even a restaurant. In short, it creates environments where people can thrive and work together. The spaces are there to support collaborative work needed for such impactful technology.

House of Quantum is powered by Quantum Delta NL, a thriving quantum ecosystem for Europe. As an ecosystem, the aim is to achieve a profound societal impact with its deep technological innovation. Quantum Delta NL connects people within the field of quantum and beyond to learn, collaborate and accomplish even more together.

Address:

House of Quantum
Elektronicaweg 10
2628 XG Delft
The Netherlands

How to get there by public transport?

From Delft central station you can take one of the following buses:

40 to Rotterdam Centraal

69 to TU Campus

174 to Rotterdam Noord

Get out at Berlageweg. From here it is a 500 meter walk to House of Quantum.

Register for the tour by emailing erik@insidequantumtechnology.com. A confirmation will be returned.
